A stand-up comedian offers a humorous collection of essays empowered by the brazen character she plays on HBO's *Curb Your Enthusiasm*, in book where she attacks such topics as men, dogs, psychotherapy and what to do when your date admits his inner child is Dame Judy Dench.

A new series about mind readers from a New York Times and USA Today bestselling author... Everyone thinks I'm a genius. Everyone is wrong. Sure, I finished Harvard at eighteen and now make crazy money at a hedge fund. But that's not because I'm unusually smart or hard-working. It's because I cheat. You see, I have a unique ability. I can go outside time into my own personal version of reality—the place I call “the Quiet”—where I can explore my surroundings while the rest of the world stands still. I thought I was the only one who could do this—until I met her. My name is Darren, and this is how I became entangled with all the Russians and learned that I'm a Reader.

Looks at the art of chess calculation, describing when a player should calculate, how to discover moves, and how much time to spend on critical moves.

Follows the adventures of young Ven, a hobbit-like youth who is eventually befriended by a ship's captain and placed in the care of the captain's wife, an inn-keeper who oversees orphaned charges and an array of eccentric boarders. Reprint.

Discover the art of kogin, a style of traditional Japanese sashiko embroidery with modern appeal. Historically, kogin was used as a pattern darning technique to reinforce threadbare fabric and add warmth to the clothing worn by farmers in the villages of northern Japan. With

This is an illustrated technical guide to the Boeing 737 aircraft. Containing extensive explanatory notes, facts, tips and points of interest on all aspects of this hugely successful airliner and showing its technical evolution from its early design in the 1960s through to the latest advances in the MAX. The book provides detailed descriptions of systems, internal and external components, their locations and functions, together with pilots notes and technical specifications. It is illustrated with over 500 photographs, diagrams and schematics. Chris Brady has written this book after many years developing the highly successful and informative Boeing 737 Technical Site, known throughout the world by pilots, trainers and engineers as the most authoritative open source of information freely available about the 737.

Fundamentals of Human Physiology was conceived to meet the needs of students and professors struggling with the complexity and depth of the larger, more detailed human physiology textbooks currently available. In addition to being more concise and focusing on the basics of human physiology, this text is smaller in physical size, allowing for a cheaper, easier choice for instructors.
