The future of politics after

Page 42/94

Get Free Poultry Diseases Book Bookfeeder

the pandemic COVID-19 exposed the pre-existing conditions of the current global crisis. Many Western states failed to protect their populations, while others were able to suppress the virus only with sweeping

Get Free Poultry Diseases Book Bookfeeder

social restrictions. In contrast, many Asian countries were able to make much more precise interventions. Everywhere, lockdown transformed everyday life, introducing an epidemiological view of

Get Free Poultry Diseases Book Bookfeeder

society based on sensing,
modeling, and filtering.
What lessons are to be
learned? The Revenge of the
Real envisions a new
positive biopolitics that
recognizes that governance
is literally a matter of

Get Free Poultry Diseases Book Bookfeeder

life and death. We are grappling with multiple interconnected dilemmas—climate change, pandemics, the tensions between the individual and society—all of which have to be addressed on a planetary

Get Free Poultry Diseases Book Bookfeeder

scale. Even when separated,
we are still enmeshed. Can
the world govern itself
differently? What models and
philosophies are needed?
Bratton argues that instead
of thinking of
biotechnologies as something

Get Free Poultry Diseases Book Bookfeeder

imposed on society, we must see them as essential to a politics of infrastructure, knowledge, and direct intervention. In this way, we can build a society based on a new rationality of inclusion, care, and

Get Free Poultry Diseases Book Bookfeeder

prevention.

This enchanting study on the art of living with books considers how our personal libraries reveal our true nature: far more than just places, they are living

Get Free Poultry Diseases Book Bookfeeder

labyrinths of our innermost feelings. The author, a lifelong accumulator of books both ancient and modern, lives in a house large enough to accommodate his many thousands of books, as well as overspill from

Get Free Poultry Diseases Book Bookfeeder

the libraries of his friends. While his musings on the habits of collectors past and present are learned, witty and instructive, his advice on cataloguing may even save the lives of those whose

Get Free Poultry Diseases Book Bookfeeder

books are so prodigiously
piled as to be a hazard.
Phantoms on the Bookshelves
ranges from classical Greece
to contemporary Iceland,
from Balzac and Moby Dick to
Google, offering up
delicious anecdotes along

Get Free Poultry Diseases Book Bookfeeder

the way. This elegantly produced volume will be a lasting delight to specialist collectors, librarians, bibliophiles and all those who treasure books.

Get Free Poultry Diseases Book Bookfeeder

An in-depth history of the Stalinist skyscraper In the early years of the Cold War, the skyline of Moscow was forever transformed by a citywide skyscraper building project. As the steel girders of the monumental

Get Free Poultry Diseases Book Bookfeeder

towers went up, the centuries-old metropolis was reinvented to embody the greatness of Stalinist society. Moscow Monumental explores how the quintessential architectural works of the late Stalin era

Get Free Poultry Diseases Book Bookfeeder

fundamentally reshaped daily life in the Soviet capital. Drawing on a wealth of original archival research, Katherine Zubovich examines the decisions and actions of Soviet elites—from top leaders to master

Get Free Poultry Diseases Book Bookfeeder

architects—and describes the experiences of ordinary Muscovites who found their lives uprooted by the ambitious skyscraper project. She shows how the Stalin-era quest for monumentalism was rooted in

Get Free Poultry Diseases Book Bookfeeder

the Soviet Union's engagement with Western trends in architecture and planning, and how the skyscrapers required the creation of a vast and complex infrastructure. As laborers flooded into the

Get Free Poultry Diseases Book Bookfeeder

city, authorities evicted and rehoused tens of thousands of city residents living on the plots selected for development. When completed in the mid-1950s, these seven ornate neoclassical buildings

Get Free Poultry Diseases Book Bookfeeder

served as elite apartment complexes, luxury hotels, and ministry and university headquarters. Moscow Monumental tells a story that is both local and broadly transnational, taking readers from the

Get Free Poultry Diseases Book Bookfeeder

streets of interwar Moscow and New York to the marble-clad halls of the bombastic postwar structures that continue to define the Russian capital today.

Get Free Poultry Diseases Book Bookfeeder

The Palace of Culture and Science is a massive Stalinist skyscraper that was "gifted" to Warsaw by the Soviet Union in 1955.

Page 62/94

Get Free Poultry Diseases Book Bookfeeder

Framing the Palace's visual, symbolic, and functional prominence in the everyday life of the Polish capital as a sort of obsession, locals joke that their city suffers from a "Palace of Culture complex." Despite

Get Free Poultry Diseases Book Bookfeeder

attempts to privatize it, the Palace remains municipally owned, and continues to play host to a variety of public institutions and services. The Parade Square, which surrounds the building, has

Get Free Poultry Diseases Book Bookfeeder

resisted attempts to convert it into a money-making commercial center. Author Michał Murawski traces the skyscraper's powerful impact on 21st century Warsaw; on its architectural and urban landscape; on its political,

Get Free Poultry Diseases Book Bookfeeder

ideological, and cultural lives; and on the bodies and minds of its inhabitants.

The Palace Complex explores the many factors that allow Warsaw's Palace to endure as a still-socialist building in a post-socialist city.

Get Free Poultry Diseases Book Bookfeeder

The most significant architectural spaces in the world are now entirely empty of people. The data centres, telecommunications networks, distribution warehouses, unmanned ports and

Get Free Poultry Diseases Book Bookfeeder

industrialised agriculture that define the very nature of who we are today are at the same time places we can never visit. Instead they are occupied by server stacks and hard drives, logistics bots and mobile

Get Free Poultry Diseases Book Bookfeeder

shelving units, autonomous cranes and container ships, robot vacuum cleaners and internet-connected toasters, driverless tractors and taxis. This issue is an atlas of sites, architectures and

Get Free Poultry Diseases Book Bookfeeder

infrastructures that are not built for us, but whose form, materiality and purpose is configured to anticipate the patterns of machine vision and habitation rather than our own. We are said to be

Get Free Poultry Diseases Book Bookfeeder

living in a new geological epoch, the Anthropocene, in which humans are the dominant force shaping the planet. This collection of spaces, however, more accurately constitutes an era of the Post-

Get Free Poultry Diseases Book Bookfeeder

Anthropocene, a period where it is technology and artificial intelligence that now computes, conditions and constructs our world.

Marking the end of human-centred design, the issue turns its attention to the

Get Free Poultry Diseases Book Bookfeeder

new typologies of the post-
human, architecture without
people and our endless
expanse of Machine
Landscapes. Contributors:

Get Free Poultry Diseases Book Bookfeeder

How socialist architects and planners worked collectively to urbanize and develop the global South during the Soviet era In the course of the Cold War, architects, planners, and contractors

Page 76/94

Get Free Poultry Diseases Book Bookfeeder

from socialist Eastern Europe engaged in a vibrant collaboration with those in West Africa and the Middle East in order to bring modernization to the developing world.

Architecture in Global

Get Free Poultry Diseases Book Bookfeeder

Socialism shows how their collaboration reshaped five cities in the global South: Accra, Lagos, Baghdad, Abu Dhabi, and Kuwait City. Łukasz Stanek describes how local authorities and professionals in these

Get Free Poultry Diseases Book Bookfeeder

cities drew on Soviet prefabrication systems, Hungarian and Polish planning methods, Yugoslav and Bulgarian construction materials, Romanian and East German standard designs, and manual laborers from across

Get Free Poultry Diseases Book Bookfeeder

Eastern Europe. He explores how the socialist development path was adapted to tropical conditions in Ghana in the 1960s, and how East European architectural traditions were given new life in 1970s Nigeria. He

Get Free Poultry Diseases Book Bookfeeder

looks at how the differences between socialist foreign trade and the emerging global construction market were exploited in the Middle East in the closing decades of the Cold War. Stanek demonstrates how these and

Get Free Poultry Diseases Book Bookfeeder

other practices of global cooperation by socialist countries—what he calls socialist worldmaking—left their enduring mark on urban landscapes in the postcolonial world.

Featuring an extensive

Get Free Poultry Diseases Book Bookfeeder

collection of previously unpublished images, Architecture in Global Socialism draws on original archival research in sixteen countries and a wealth of in-depth interviews. This incisive book presents a new

Get Free Poultry Diseases Book Bookfeeder

understanding of global
urbanization and its
architecture through the
lens of socialist
internationalism,
challenging long-held
notions about modernization
and development in the

Get Free Poultry Diseases Book Bookfeeder

global South.

Hackers as vital disruptors,
inspiring a new wave of
activism in which ordinary
citizens take back
democracy. Hackers have a
bad reputation, as shady

Get Free Poultry Diseases Book Bookfeeder

deployers of bots and destroyers of infrastructure. In *Coding Democracy*, Maureen Webb offers another view. Hackers, she argues, can be vital disruptors. Hacking is becoming a practice, an

Get Free Poultry Diseases Book Bookfeeder

ethos, and a metaphor for a new wave of activism in which ordinary citizens are inventing new forms of distributed, decentralized democracy for a digital era. Confronted with concentrations of power,

Get Free Poultry Diseases Book Bookfeeder

mass surveillance, and authoritarianism enabled by new technology, the hacking movement is trying to “build out” democracy into cyberspace. Webb travels to Berlin, where she visits the Chaos Communication Camp, a

Get Free Poultry Diseases Book Bookfeeder

flagship event in the hacker world; to Silicon Valley, where she reports on the Apple-FBI case, the significance of Russian troll farms, and the hacking of tractor software by desperate farmers; to

Get Free Poultry Diseases Book Bookfeeder

Barcelona, to meet the hacker group XNet, which has helped bring nearly 100 prominent Spanish bankers and politicians to justice for their role in the 2008 financial crisis; and to Harvard and MIT, to

Get Free Poultry Diseases Book Bookfeeder

investigate the institutionalization of hacking. Webb describes an amazing array of hacker experiments that could dramatically change the current political economy. These ambitious hacks aim to

Get Free Poultry Diseases Book Bookfeeder

displace such tech monoliths
as Facebook and Amazon;
enable worker cooperatives
to kill platforms like Uber;
give people control over
their data; automate trust;
and provide citizens a real
say in governance, along

Get Free Poultry Diseases Book Bookfeeder

with capacity to reach
consensus. Coding Democracy
is not just another
optimistic declaration of
technological utopianism;
instead, it provides the
tools for an urgently needed
upgrade of democracy in the

Get Free Poultry Diseases Book Bookfeeder

digital era.
