Supporting the study of English literature from the Middle Ages to the present, this book is designed as an introductory text and a helpful reference tool for an entire English Literature degree. Its key mission is to help students understand the link between the historical context in which the literature developed, how this has influenced the literature of the period and how subsequent periods in literature have been influenced by those that precede them. The book is carefully structured for undergraduate use, with a rich range of illustrations and textboxes that enhance and summarise vital background material. The seven chronological chapters are written by a team of expert contributors who are also highly experienced teachers with a clear sense of the requirements of the undergraduate English curriculum. Each analyses a major historical period, surveying and documenting the cultural contexts that have shaped English literature, and focusing on key texts. In addition to the narrative survey, each chapter includes a detailed chronology, providing a quick-reference guide to the period; contextual readings of select literary texts; and annotated suggestions for further reading.

This text examines a key topic in modern literary studies. Contextual factors shape our perception of how literary texts are made, and how they are read. The understanding of conceptual factors is becoming increasingly more fundamental to the study of English at undergraduate and A level standard. The book contains essays by scholars on the contextual understanding of works of literature from Chaucer to the modern day. The text and authors chosen are central to a level and undergraduate syllabuses, and the book is endorsed by the QCA and the CCUE.

This book covers the range of Thomas Hardy's works while providing a comprehensive introduction to his life and times.

T. S. Eliot's work demands much from his readers. The more the reader knows about his allusions and range of cultural reference, the more rewarding are his poems, essays and plays. This book is carefully designed to provide an authoritative and coherent examination of those contexts essential to the fullest understanding of his challenging and controversial body of work. It explores a broad range of subjects relating to Eliot's life and career; key literary, intellectual, social and historical contexts; as well as the critical reception of his oeuvre. Taken together, these chapters sharpen critical appreciation of Eliot's writings and present a comprehensive, composite portrait of one of the twentieth century's pre-eminent men of letters. Drawing on original research, T. S. Eliot in Context is a timely contribution to an exciting reassessment of Eliot's life and works, and will provide a valuable resource for scholars, teachers, students and general readers.

This collection of original, concise essays by leading international scholars draws closely on the Cambridge Edition of the Letters and Works of D. H. Lawrence to provide up-to-date insights into the key contexts to the author's life, career and legacy. It opens with an overview of Lawrence's life as it is explored in biographies and revealed in his letters and writing, before reassessing his relationship to the contemporary literary marketplace, and his response to - and intervention in - a range of literary/cultural and social/historical contexts. It ends with sections on Lawrence's changing critical reception and his powerful legacy in the work of later authors and filmmakers. The essays present a detailed and nuanced picture of Lawrence as an enterprising professional author with a truly cosmopolitan outlook who engaged deeply and strongly with his contemporary culture, and with currents of thought across a range of disciplines.

Covering a wide range of historical, theoretical, critical and cultural contexts, this collection studies key issues in contemporary Woolf studies.

Provides a comprehensive exploration of Beckett's historical, cultural and philosophical contexts, offering new critical insights for scholars and general readers.
