These splendid objects

The eureka moment is a myth. It is an altogether naïve and fanciful account of human progress. Innovations emerge from a much less mysterious combination of historical, circumstantial, and accidental influences.

Online Library Flower Spirits

This book explores the origin and evolution of several important behavioral innovations including the high five, the Heimlich maneuver, the butterfly stroke, the moonwalk, and the Iowa caucus. Such creations' striking suitability to the situation and the moment appear ingeniously designed with foresight.

Online Library Flower Spirits

However, more often than not, they actually arise 'as if by design.'

Based on investigations into the histories of a wide range of innovations, Edward A. Wasserman reveals the nature of behavioral creativity. What surfaces is a fascinating web of causation involving three main factors: context,

consequence, and
coincidence. Focusing
on the process rather
than the product of
innovation elevates
behavior to the very
center of the creative
human endeavor.

little book celebrates the devotion and quirky habits plants inspire.

You know you're a crazy plant lady when watering is a hobby, you can't resist a cute pot, and just looking at succulents and monstera makes you smile. This charming celebration of the plant lady lifestyle proves that plant love is the joy that

different parts of the world. Yet, it is worth noting that the management of breast cancer is now largely predicated on evidence-based medicine. Several large, randomized prospective trials have demonstrated the efficacy of breast cancer screening and chemoprevention. Other large trials have

addressed the impact of systemic therapy, radiotherapy, and variations in local therapy on breast cancer mortality. Many of these landmark trials are discussed in this text, and they clearly have had a beneficial effect. Indeed, since about 1990, breast cancer mortality rates have declined substantially in
