History Of Mathematics In Finland 1828 1918
Finland has no history of placing well in international comparisons of achievement in mathematics. However, the results of the PISA 2000 and 2003 studies are quite impressive, and they are further corroborated by similar results in the parallel scales in " ordinary " literacy, in science, and in problem solving (2003 only).

The History of Finland begins around 9,000 BC during the end of the last glacial period. Stone Age cultures were Kunda, Comb Ceramic, Corded Ware, Kiukainen, and Pöytä cultures. The Finnish Bronze Age started in approximately 1,500 BC and the Iron Age started in 500 BC and lasted until 1,300 AD. Finnish Iron Age cultures can be separated into Finnish proper, Tavastian, and Karelian cultures.

History of Finland - Wikipedia
The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.

History of mathematics - Wikipedia
Finnish Mathematical Society (FMS) is the society of researchers, professionals and students of pure and applied mathematics in Finland. The society was founded in 1868 and its purpose is to advance the research and education of mathematics as well as the general interest towards mathematics in Finland. Central activities of the society are organizing various events such as the Finnish Mathematical Days, participating in publishing the Arkhimeses magazine, having an international visitor ...

Finnish Mathematical Society
Its particular draw is an accelerated math program, and many students plan to study science, engineering, or business at university. The modestly sized history department thus offers a taste of what Finnish history education is like at a school that is academically well-reputed but more oriented to STEM than humanities.

History Education in Finland | Perspectives on History | AHA
In Finland, the national core curriculum is a framework for making local curricula. It determines a common structure and basic guidelines that the local curriculum makers, school officials and teachers, use in order to build a local, context driven curriculum. The National Core Curriculum has two parts.

THE FINNISH NATIONAL CORE CURRICULUM: STRUCTURE AND ...
The 1990 's was a very fruitful decade in Finnish mathematics education. The National Board of Education published a guide book (Seppälä 1994) to help teachers when implementing the curricular framework (NBE 1994).

Problem solving in mathematics education in Finland
In Finland, basic education in mathematics is carried out by primary school teachers, responsible for the first six years of schooling, i.e., grades 1-6 when pupils are 7 to 12 years old, and by specialised subject teachers, who teach mathematics at secondary school level in grades 7-9 when pupils are 13 to 16 years old.
