184 Social Studies Industrialisation and Social Change 15CHAPTER The transformation of industry and the economy in Britain between the 1780s and the 1850s is called the 'first industrial revolution'. This had far-reaching effects in Britain. Later, similar changes occurred in European countries and in the USA.

CHAPTER Industrialisation and Social Change

Industrialisation is the process whereby the economy shifted from being based largely around agriculture to being based on industry and manufacturing. In the UK, this processes happened rapidly, particularly in the 18 th and 19 th centuries, as the industrial revolution. Alongside industrialisation there was a closely-related process of urbanisation. This is the process where people move from rural communities into towns and cities, resulting in the rapid growth of those towns and cities.

Industrialisation and the Family \ Sociology \ tutor2u

Industrialisation represents a process that involves economic and social change. The impact of this process is the transformation of a society from the pre-industrial stage into industrial stage. Industrialisation is therefore part and parcel of the complex modernisation process.

Industrialisation In Developing Countries Economics Essay

The exact cause of the Industrial Revolution is debatable among historians today, some believe that the Revolution was an outgrowth of social and institutional changes brought about by the end of feudalism in Britain after the English Civil War while others simply blame it upon the effectiveness of border patrol, which prevented less diseases from entering the countries.

Industrial Revolution: Causes and Social, Economic ...

Social, economic, and cultural change The population expanded rapidly in the 13th century, reaching a level of about five million. Great landlords prospered with the system of high farming, but the average size of small peasant holdings fell, with no compensating rise in productivity.

United Kingdom - Social, economic, and cultural change ...

Both concept and terms are correlated. When any change take place in a culture is called cultural change. Adopting and practicing that change is called social change. When cultural change occurs, it changes the attitude of individuals as well which leads to social change. If people attitudes change (social change) it results in cultural change.

Technological change has a broad impact on culture. For example, the internet allows people to connect to social groups and media that represents a particular worldview. This can result in tribalism whereby people no longer see themselves as part of a greater society.

15 Examples of Culture Change - Simplifiable

Culture versus law. Dusseldorp says in the modern society there are always going to be cultural practices that people are going to disagree with, however the main thing is whether the person subjected to the cultural practice has a say about it. "You must evaluate on how a cultural practice impacts on the autonomy of an individual."
