Glue one cover at a time, making sure that the new leather cover hangs over the edge of the paperback by 1/8" on all sides. Don't glue the spine or hinge sections (see diagram). If you glue these, the book won't open properly. When everything is glued, put weights on top of the closed book and let the glue dry for a long time (several hours). Use nice flat boards to avoid putting dents in the leather cover.

Leather Bindings If you have leather bound books, dust them like you would any other book. If they ' re still dirty, the Alabama Department of Archives and History recommends using a small amount of saddle soap and a clean, lint-free cloth to clean the leather.

Joan Dudley is a young orphaned woman who's swept into the world of the rich and famous ... and of passionate love. Temple Bailey (1880-1953) was an American author. She wrote countless short stories for women's magazines, and over thirty novels that sold in the millions. Bailey is beloved for her happy endings.

New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of Can't Hurt Me, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

This book describes clinker and coldmolded construction methods for sail-, row- or power-boats up to 20 feet in length. A NEW YORK TIMES BESTSELLER “ Brilliant and enthralling. ” —The Wall Street Journal A paradigm-shifting book from an acclaimed Harvard Medical School scientist and one of Time ' s most influential people. It ' s a seemingly undeniable truth that aging is inevitable. But what if everything we ' ve been taught to believe about aging is wrong? What if we could choose our lifespan? In this groundbreaking book, Dr. David Sinclair, leading world authority on genetics and longevity, reveals a bold new theory for why we age. As he writes: “ Aging is a disease, and that disease is treatable. ” This eye-opening and provocative work takes us to the frontlines of research that is pushing the boundaries on our perceived scientific limitations, revealing incredible breakthroughs—many from Dr. David Sinclair ' s own lab at Harvard—that demonstrate how we can slow down, or even reverse, aging. The key is activating newly discovered vitality genes, the descendants of an ancient genetic survival circuit that is both the cause of aging and the key to reversing it. Recent experiments in genetic reprogramming suggest that in the near future we may not just be able to feel younger, but actually become younger. Through a page-turning narrative, Dr. Sinclair invites you into the process of scientific discovery and reveals the emerging technologies and simple lifestyle changes—such as intermittent fasting, cold exposure, exercising with the right intensity, and eating less meat—that have been shown to help us live younger and healthier for longer. At once a roadmap for taking charge of our own health destiny and a bold new vision for the future of humankind, Lifespan will forever change the way we think about why we age and what we can do about it.

A non-technical account of recent astronomical research makes all that is known about the universe accessible to the average reader, in a study that integrates scientific personalities with hard facts, vivid explanations, and authoritative speculation

An extraordinary and surreal art book, this edition has been redesigned by the author and includes new illustrations. Deluxe numbered, limited edition of 600 w/signed card. Ever since the Codex Seraphinianus was first published in 1981, the book has been recognized as one of the strangest and most beautiful art books ever made. This visual encyclopedia of an unknown world written in an unknown language has fueled much debate over its meaning. Written for the information age and addressing the import of coding and decoding in genetics, literary criticism, and computer science, the Codex confused, fascinated, and enchanted a generation. While its message may be unclear, its appeal is obvious: it is a most exquisite artifact. Blurring the distinction between art book and art object, this
