Next I'll go through the setup for DMR as that's all I use on my hotspot, but it's not hard to figure out the other modes. First select MMDVMHost and Simplex Node then enable the modes you're going to use. Change display type to whatever display your going to use. The port doesn't matter for OLED and I believe it's Modem for Nextion displays.

•Hotspot Setup •Get on the Air. ... DMR Network, via a Pi-Star-based MMDVM hotspot. This seminar is not intended to teach basic DMR concepts, other radios, other networks, or other hotspots, however in many cases, the information is universal. What is a DMR Hotspot?

~~DMR-Hotspot-Setup,-Techniques,-and-Equipment~~

Before trying to configure or connect to your phone hotspot turn on the phone hotspot and wait for 2 minutes. Then power on your MMDVM and wait for it to fully boot up before configuring or testing it with Parrot. If this doesn't resolve the issue you may want to try one of the latest Beta versions of the Pi-Star software.

~~DMR-Hotspot-Information---Stones-River-Amateur-Radio-Club~~

Accessing BrandMeister DMR with your radio and a public repeater or hotspot All you have to worry about is the codeplug of your radio. In the configuration, you will use the 7-digit DMR ID your call-sign has been assigned (for example: 2060945) and the proper TX/RX frequencies. Accessing BrandMeister DMR using your radio and personal hotspot
