However, Dr. Harris kept chapter 1 concise and straight to the point. It introduced ideas of modern physics and the problem with classical physics. That's that. No usual boring explanation of the scientific method or what a hypothesis is, etc. The textbook uses simple enough language that anyone who reads it can figure out what is happening. Very interesting stuff! I'm taking the course with ...

Second, some things have energy and no mass, so if any of these are generated, the energy and mass of what remains could change. 2.11 No, for if we consider a frame in which the initial object is at rest, kinetic energy clearly increases, so mass would have to decrease. 2.12 No, for if we consider a frame in which the final object is at rest, kinetic energy clearly decreases, so mass would have to increase. 2.13 Yes, of course.
