While social sciences are witnessing the revival of the idea of deliberative democracy (Elster, 1988), as well as the possibility of transforming social positions through dialogue (Giddens, 1994), we now have a book that discusses how to develop such dialogic democracy in education. In Pedagogy of Freedom, Freire defends a universal human ethic that extends not only to schools but also to teachers' training., Harvard Educational Review

Pedagogy of the Heart represents some of the last writings by Paulo Freire. In this work, perhaps more so than any other, Freire presents a coherent set of principles for education and politics. For those who have read Freire's other works the book includes new discussions of familiar subjects including community, neoliberalism, faith, hope, the oppressed, and exile. For those coming to Freire for the first time, the book will open up new ways of looking at the interrelations of education and political struggle. Freire reveals himself as a radical reformer whose lifelong commitment to the vulnerable, the illiterate and the marginalised has had a profound impact on society and education today. The text includes substantive notes by Ana Maria Araújo Freire, a foreword by Martin Carnoy, a preface by Ladislau Dowbor, as well as a substantive new introduction by Antonia Darder, who holds the Leavey Presidential Endowed Chair in Ethics and Moral Leadership in the School of Education at Loyola Marymount University, USA. Translated by Donaldo Macedo and Alexandre Oliveira.

Freire and Macedo analyse the connection between literacy and politics according to whether it produces existing social relations, or introduces a new set of cultural practices that promote democratic and emancipatory change.

Upon its original publication in Portuguese *Teachers as Cultural Workers* became an instant success. Translated and published in English and now reissued in paperback with new essays from leading education scholars

An important look at education and the urban poor, and a continuation of the experiments in education of *Pedagogy of the Oppressed*. Freire describes the everyday struggles, political as well as administrative, fought in the urban schools of Sao Paulo during Freire's recent 10-year tenure as minister of education.

Few problems in education are as pressing as the severe crisis in urban schools. Though educators have tried a wide range of remedies, dismal results persist. This is especially true for low-income youth of color, who drop out of school—and into incarceration—at extremely high rates. The dual calamity of underachievement in schools and violence in many communities across the country is often met with blame and cynicism, and with a host of hurtful and unproductive quick fixes: blaming educators, pitting schools against each other, turning solely to the private sector, and ratcheting up the pressure on teachers and students. But real change will not be possible until we shift our focus from finding fault to developing partnerships, from documenting problems to discovering solutions. *Learning to Liberate* does just that by presenting true and compelling community-based approaches to school reform. Drawing on over three years of ethnographic research, Vajra Watson explores the complicated process of reaching and teaching today's students. She reveals how four nontraditional educators successfully empower young people who have repeatedly been left behind. Using portraiture, a methodology rooted in vivid storytelling, Watson analyzes each educator's specific teaching tactics. Uncovering four distinct pedagogies—of communication, community, compassion, and commitment—she then pulls together their key strategies to create a theoretically grounded framework that is both useful and effective. A poignant, insightful, and practical analysis, *Learning to Liberate* is a timely resource for all educators and youth-serving practitioners who are committed to transforming "at-risk" youth into "at-promise" individuals who put their agency and potential into action in their schools and neighborhoods.

Famous Brazilian educational and social theorist Paulo Freire presents his ideas on the importance of community solidarity in moving toward social justice in schools and society. In a set of talks and interviews shortly before his death, Freire addresses issues not often highlighted in his work, such as globalization, post-modern fatalism, and the qualities of educators for the 21st century. His illuminating comments are supplemented with commentaries by other well-known scholars, such as Ana Maria Araujo Freire, Walter de Oliveira, Norman Denzin, Henry Giroux, and Donaldo Macedo.
