We all know expectations matter - in school, in sports, in the stock market. From a healing placebo to a run on the bank, hints of their self-fulfilling potential have been observed for years. But we've never fully understood why. Journalist Chris Berdik offers a captivating look at the frontiers of expectations research, revealing how our brains work in the future tense and how our assumptions - about the next few milliseconds or the next few years - bend reality. We learn how placebo calories can fill us up, how fake surgery can sometimes work better than real surgery, and how even imaginary power can be corrupting. We meet scientists who have found that wearing taller and more attractive avatars in a virtual world boosts confidence in real life, gambling addicts whose brains make losing feel like winning, and coaches who put blurry glasses on athletes to lift them out of slumps. Drawing on psychology, neuroscience, history, and fascinating true stories of expectations in action, Mind Over Mindoffers a spirited journey into one of the most exciting areas of brain research today. 'Explores the far-reaching influence of expectations - and reveals how you can use them to your advantage.' O, The Oprah Magazine 'Berdik delivers an optimistic message with a convincing punch- Understanding the power of imagination can challenge our assumptions about what it means to be human and liberate us from they tyranny of self-fulfilling prophecies.' Collin Ellard, author, You Are Here, and director of the Research Laboratory for Immersive Virtual Environments at the University of Waterloo 'This is a delightful book- a mindbending survey of what scientists are beginning to learn about the remarkable powers of the imagination. Fascinating, illuminating, and full of surprises, Mind Over Mindwill forever change the way you think - about the way you think.' Toby Lester, author, Da Vinci's Ghostand The Fourth Part of the World

Your life is dominated by your unconscious mind: by thoughts you're unaware of and movements you don't realise you are making. Words, colours, mannerisms and other cues you don't realise are affecting you, change what you think. The confidence you have in your ability to reason and to consciously choose what to do is caused by a series of illusions that scientists are only just beginning to understand. The discovery of these illusions will change the way we see ourselves more than the discoveries of Darwin and Copernicus. Unthink explores the unconscious decisions we make, and covers a variety of topics, ranging from how we choose politicians and romantic partners to more abstract subjects such as whether we can consciously decide to move our fingers. The counter-intuitive observations that Chris makes in the book include: ? If you want someone to fancy you, wear red and meet them somewhere frightening. ? When waitresses repeat customers' orders back to them instead of just saying 'yes' they receive bigger tips. ? To reduce your shopping bill, start at the beer and snacks end of the store and work backwards. ? If you sit someone in an upright chair when you give them good news they will be prouder of their achievements. ? Having a picture of your family on your desk might make you work harder, but you'll be rattier when you get home! Chris Paley shows us how we can understand ourselves and others better, by having a greater understanding of the way that the unconscious mind has an impact of the way we live our lives.

Utilizing and effectively employing the power of your mind and your brain are essential prerequisites for achieving anything great in life. However, when it comes to the development of their own mind power or brain power many people are clueless. They are not even aware that they possess the means of changing their brain's circuitry through neuroplasticity based techniques. Neuroplasticity or brain plasticity refers to the brain's ability to change and adapt as a result of experience. The brain actually has the ability to reorganize itself by creating new neural pathways. So how do you go about increasing your mind power as well as your brain power so that they are both operating at an optimal level In his book entitled Mind Power: The Never Revealed Secret Ways To Achieve Greatness Using Mind Mastery And Neuroplasticity author John Waters shows you exactly how. He gives you a thorough understanding of how your brain functions and provides you with the tricks you need to achieve your greatest self-whether that be your most creative, attractive, intelligent, intuitive, or athletic side.

Sigmund Freud, the father of psychoanalysis, was among the first people in the world to talk about human personality and the way our mind is structured. He was the one to introduce the three important structures: conscious, subconscious and unconscious mind. Today, we have come a long way from those times and we definitely know a lot more information on how the mind functions and the way these three structures are interconnected. In this book, you will find exciting information on how the mind and the subconscious are related. Moreover, you will be able to find out about the power of the conscious mind and the important role the unconscious plays in the whole picture. The fantastic read introduces you into the world of thoughts, presents visualization as a unique technique to stimulate mind power and also provides a glimpse into the laws of attraction. It is a wonderful reading experience and one that will leave you feeling richer in the end.

In a book featuring personal anecdotes and stories, the author teaches readers various meditation practices, including mindfulness practices, sitting practices and creative practices. Original.

The Power of a Made Up Mind is a book that challenges individuals to think about what they are thinking about. The book is thought provoking, inspirational, and challenging. It encourages us to reach higher and higher until the dream is fulfilled.

“Whether you run your own business or work for someone else, you've probably got a lot on your plate. Along with the portion of your work that you truly feel like doing comes a generous helping of things you'd rather not do. As consultants, Steve Levinson and Chris Cooper have seen countless clients struggle--and often fail--to do the many success-producing things they know they should do but don't feel like doing. The Power to Get Things Done will teach you how to consistently turn your good intentions into action so that you can be as successful as possible in the work you do. Don't feel like filing those pesky tax forms or making the follow-up calls you've been putting off? The Power to Get Things Done will show you how to get yourself--and keep yourself--in gear.”--Amazon.com.
