economics in which a wide variety of economic approaches ranging from the neoclassical to the marxist are used to examine the political economy of the peasantry. The defining feature of the peasants are that they are typically seen to be only partly integrated into the market economy - an economy which, in societies with a significant peasant population, is typically found to have many imperfect, incomplete or missing markets.

Chayanov. The work of A. V. Chayanov is today drawing more attention among Western scholars than ever before. Largely ignored in his native Russia because they differed from Marxist-Leninist theory, and neglected in the West for more than forty years, Chayanov's sophisticated theories were at last published in English in 1966.

This view of peasant farming implies that it will not develop into capitalism without some external, added factor.

Furthermore, the peasant's way of life is seen as ideologically [citation needed] opposed to capitalism in that the family work for a living, not for a profit. Evidence for this principle is found in the actions of Turkish peasants after the collapse of cereal prices in 1929.
