Singing the praises of his unequaled toughness, his mighty kicking feet, his indestructible beard, his frightening virility, and his ability to stop time by thinking about pineapples, The Truth About Chuck Norris is the one book brave enough to go behind the beard and reveal the real Chuck. died. ¶ Chuck Norris can charge a cell phone by rubbing it against his beard. ¶ When an episode of ¶Walker, Texas Ranger¶ aired in France, the French surrendered to Chuck Norris just to be on the safe side. ¶ Chuck Norris was the first person to tame a dinosaur. ¶ Chuck Norris once visited The Virgin Islands. Afterward, they were renamed The Islands. ¶ Every piece of furniture in Chuck Norris¶s house is a Total Gym. This year¶s report presents evidence that the absolute number of people who suffer from hunger continues to slowly increase. The report also highlights that food insecurity is more than just hunger. For the first time, the report provides evidence that many people in the world, even if not hungry, experience moderate food insecurity as they face uncertainties about their ability to obtain food and are forced to compromise on the quality and/or quantity of the food they consume. This phenomenon is observed globally, not only in low- and middle-income countries but also in high income countries. The report also shows that the world is not on track to meet global nutrition targets, including those on low birthweight and on reducing stunting among children under five years. Moreover, overweight and obesity continue to increase in all regions, particularly among school-age children and adults. The report stresses that no region is exempt from the epidemic of overweight and obesity, underscoring the necessity of multifaceted, multisectoral approaches to halt and reverse these worrying trends. In light of the fragile state of the world economy, the report presents new evidence confirming that hunger has been on the rise for many countries where the economy has slowed down or contracted. Unpacking the links between economic slowdowns and downturns and food insecurity and malnutrition, the report contends that the effects of the former on the latter can only be offset by addressing the root causes of hunger and malnutrition: poverty, inequality and marginalization.
