Offers wide coverage of the subject and discusses both typical development and the development of difficulties in reading Accessibly written for students and professionals with no previous background in reading development or reading difficulties Provides a detailed examination of the specific problems that underlie reading difficulties

In *The Power of Dyslexic Thinking*, Rob Langston shares the inspirational stories of people who overcame the hurdles of living with dyslexia. Langston believes that dyslexia is not a condition that needs curing. He hopes that understanding more about the creative and intuitive benefits of dyslexia will allow educators and parents, as well as dyslexic children, to see dyslexia not as a disability, but as a gift.

Written by an authority in the dyslexia field, this is the first accessible

Get Free Unlocking Literacy Effective Decoding And Spelling Instruction Second

guide to the close interplay of spelling and dyslexia. Kelli Sandman-Hurley talks the teacher or parent through why kids with dyslexia find spelling so hard, and what we can learn from the spelling mistakes in their writing samples. Introducing key terminology around morphemes (smallest unit of meaning in words) and phonemes (smallest contrastive units in language) in an accessible and clear way, Sandman-Hurley goes on to explain how we can identify, and learn from, kids' spelling miscues, and use them to further inform our teaching and instruction. Shedding much-needed light on an under-explored tool for classroom or home learning, *Dyslexia and Spelling* is essential reading for teachers and parents alike.
