~~Picture of Urgos Grandfather Clock Movement Parts ...~~

The most important aspect of owning a grandfather clock is to take care of the grandfather clock movements. Generally, due to the different types of clocks available, finding the cause of the problem can be confusing. The rules are completely different for grandfather clocks that are more than 50 years old. They are classified as antiques.

~~How to Fix Grandfather Clock Movements~~ ~~DoItYourself.com~~

A repair usually takes weeks, or even months, to complete and in the end you are still left with an old movement that will need another overhaul at any given moment. The new movement is the same as your old movement, so all the clock components usually fit on to the new
