In a nutshell, a web design style guide is a reference source where you collect and present all of the design decisions for your website. This includes its color scheme, typography, spacing, icons, imagery, and much more. As you may already know, website design can be complex. With many people working on a project and so many iterations and changes required, it's vital that everyone uses the ...

How To Create a Web Design Style Guide - Designmodo

Just like your website, your style guide takes user experience into consideration with an easy-to-follow layout. It will function essentially as a standalone website, often with a navigational menu that lists each element of your site in a logical progression of importance. These elements are presented and styled just as they would be on the main

How to Create a Website Style Guide for Your Brand

A style guide is crucial for communicating these design concepts and ideas to a whole team (and in some cases several teams) of web designers, to ensure that an entire web presence has the same feel. The idea behind this is to make a brand instantly recognizable online. As a result, the ideal concept for a website should be one that helps site visitors quickly identify the brand and remember ...
